# Aztec and Ocicat Society

## CODE of ETHICS

This Code is to be used as a guideline for behaviour expected from Members of the Aztec and Ocicat Society

The purpose of this code is to protect the welfare of the Aztec Cats and Ocicats by maintaining high standards in breeding and ethics

Please Note: Where this code refers to the 'Aztec/Ocicat cat breed', this shall include all Aztec/Ocicat variants and permitted outcross progeny that come under the jurisdiction of the Aztec and Ocicat Society

### 1. Respect for the breed

The Member shall respect the wild beauty, intelligence, and friendly interactive nature of the Aztec. A primary concern for the Members shall be the current and future welfare of the Aztec/Ocicat breed. Members shall maintain their cats in good condition and good health at all times. Breeder Members shall undertake, as far as reasonably practical, to place kittens only into homes where they will be loved, appreciated and well cared for. These Members shall breed only for the betterment of the Aztec/Ocicat breed.

### 2. Accurate Representation

Breeder Members shall be professional in all dealings with prospective kitten owners and shall take great effort to ensure that any potential owner fully understands the Aztec/Ocicat breed, including its merits, personality and needs. All Members shall show integrity, honesty and accuracy in all appraisals of cats, pedigrees and health. Breeder Members shall discuss clearly with any potential owner the terms of sale. If the kitten is to be sold as a pet, the new owner must receive a full explanation of all the implications of a kitten being registered on the non-active register.

### 3. Agreements and Certification

Members shall not sell, lease or give any cat or kitten to any pet shop, research facility or similar. Breeder Members shall register or declare all kittens with the Governing Council of the Cat Fancy (GCCF) or other appropriate body and provide the new owner with registration papers, an accurate pedigree document, along with full health records, upon collection of a cat or kitten. Breeder Members shall only use Aztecs, Ocicats, Abyssinians, and their variants registered with a recognised registration body for breeding Aztecs/Ocicats. At the time of sale Breeder Members shall provide the new owner with a completed and signed transfer of ownership form (if available), unless it is agreed in writing by both parties not to do so (e.g. if the transfer document has not yet been received, or is to be withheld until proof of neutering is provided). Where agreements are made between two parties in writing, all Members shall adhere to the terms and conditions to which they have agreed. Kittens should be in obvious good health and fully inoculated (minimum cat flu and enteritis) when they leave the breeder.

*Recommendations: It is recommended to all Members that any agreements are put in writing and signed by both parties, making clear any terms and conditions that have been agreed to, restrictions should be judiciously used to help maintain genetic diversity.*

*Breeder Members are further advised that any contracts or agreements should be signed prior to accepting payment. It is recommended that all kittens are micro chipped prior to sale and protected by free initial insurance cover. Queens should not be allowed to have more than three litters in any two-year period, with a minimum of 19 weeks between litters (as recommended by GCCF).*

*Novice breeders should not sell kittens for breeding before seeking advice from an experienced breeder, similarly they should seek advice in both finding a suitable stud, and caring for a pregnant queen and kittens (advice and support for novice breeders is always available through the Aztec & Ocicat Society).*

### 4. Integrity, Ethics and Professional Standards

All Members shall maintain their animals in a sanitary and safe environment, with the support of regular care from a licensed veterinarian. Members shall maintain appropriate immunisation protection for all animals in their care and provide well for both their physical and emotional welfare. Breeder Members shall breed in accordance with veterinary and GCCF recommendations\* for the purpose of improving the breed. When showing their cats all Members shall abide by the show rules of the Associations with which their cats are registered, and not malign any judges or fellow competitors. Members shall not engage in false or misleading advertising of the Aztec/Ocicat Breed, or make false, misleading or degrading statements about any cats, breeders, or member's individual practices or character. Members shall conduct themselves at all times in such a manner as to reflect credit on the ownership of Aztecs/Ocicats in particular (e.g. misuse of any media, written or electronic, by publishing details of, or commenting on Cat Clubs or other people without specific permission could be considered to discredit the Aztec or Ocicat cat breeds)

*Recommendation: Any Member who has a genuine grievance is invited to bring the matter to the attention of the Committee where it will be given full consideration*

*All Members shall maintain the integrity of the Aztec and Ocicat Society by conducting themselves in a professional and ethical manner at all times. In any activity involving the ownership, breeding, sale and exhibition of Aztecs/Ocicats, all Members shall act with this code in mind and adhere to its principles*

### 5. Breach of Ethics

Any Member who appears in breach of this Code of Ethics will be expected to explain their actions to the Committee when the matter is investigated. Any Member found to be in breach of the Aztec and Ocicat Society Code of Ethics may face disciplinary action from the Aztec and Ocicat Society and from any other regulatory body to which the breach may concern. At the Committee's discretion, any serious violation may lead to the members' suspension or expulsion from the club in accordance with the Aztec and Ocicat Society Constitution and Rules.

### 6. Amendments to the Code of Ethics

Proposed amendments to the Code of Ethics should be forwarded to the Committee for consideration at the next Committee meeting. The Aztec and Ocicat Society Code of Ethics may be amended by an absolute majority of the Committee or by a simple majority at a General Meeting. Any changes implemented by the Committee between AGM's must be ratified at the next Annual General Meeting.

\* GCCF recommendations for owners and breeders can be found on the following link: <http://www.gccfcats.org/ethics.html>
